Meeting Space in St. Ciaran's.

A good gathering of Parishioners came to the presentation of 3 possible plans for the creation of a comfortable meeting area in the Church. The area at the back of the Church (my favourite!) received least support as has been the case since first proposed. There are two versions of using the side chapel – see drawing on notice board for No 1. The second has a common entrance to the proposed new area and the Church with an extended lobby area. With glass panelling at the side this attempts to hold the link more closely between the “new area” and the Church. This may involve more

structural work and another entrance into the Church is required to comply with new fire regulations. Concern was expressed about any alteration to the appearance of St. Ciaran's, an important landmark in Hartstown Community.

The desire is to have a warm comfortable meeting space for daily Mass, choir practice, adoration of the Blessed Sacrament, 1st Communion and Confirmation Meetings with the possibility of a cup of tea. If too expensive or too troublesome it will remain as a “dream”!!
